With **Richard Unger** and **Itzhak Beery**

May 29 -31 -- Florence, Italy

For info and enrollment contact: Alessandra Capelli

Cost: Euro 300

We all came to Mother Earth, with a special gift; a unique path to walk on, a soul selected Life Purpose. This Life Purpose is more than a philosophical nicety – it is a very personal and pragmatic statement of life intent that, when known and integrated, functions as a daily compass. More than one's core values, greater than right livelihood, your Life Purpose is your Right Life, your Soul In Action. Knowing your Life Purpose gives perspective to past events and current circumstances, raises awareness regarding the role others are playing in your life movie and allows you to better direct that movie towards your soul's highest intentions.

This powerful workshop reveals the Life Purpose Map encoded in your fingerprints and teaches you the soul wisdom you need to use it. Hand reading and shamanic techniques in tandem: together, these two disciplines offer the best opportunity of getting to your authentic Life Purpose.

Richard will work from the outside in, reading your hands in front of the group and using the universal themes revealed to help each participant see his or her Soul Psychology in action. Itzhak will work from the inside out, guiding you through ancient divination and spirit-connection techniques from a variety of shamanic traditions, awakening and aligning your dormant spiritual abilities, instilling your life journey with immense clarity and power.

At the end of the weekend, our intention is that each person leaves the workshop with a clear and usable picture of where his or her life is going, have the enthusiastic energy to get moving in that direction, and most importantly, have a Life Purpose awareness that will last for a lifetime.

**RICHARD UNGER**, the Founder and Director of the *International Institute of Hand Analysis*, ([www.handanalysis.net](http://www.handanalysis.net)) has read over 50,000 pairs of hands and has probably talked to more people about their Life Purpose than anyone else on the planet. He has developed a method of fingerprint analysis that accurately and specifically decodes anyone's Life Purpose and Life Lessons.

**ITZHAK BEERY**, ([www.itzhakbeery.com](http://www.itzhakbeery.com)) Co-founder of *NY Shamanic Circle* was initiated into the family tradition of Don Jose Juaquin Pineda, a Quechuan shaman from Ecuador. He also studied with Ipupiara, a Brazilian elder and Cleicha, a Peruvian healer. Itzhak practice healings in New York and conducts shamanic workshops in the USA and worldwide, He is a member of the Society for Shamanic Practitioners.
